

MANAGEMENT'S DISCUSSION AND ANALYSIS

As at June 30, 2022, for the three and six months ended June 30, 2022, the three months ended June 30, 2021 and period from incorporation on January 14, 2021 to June 30, 2021 (tabular amounts in thousands of Canadian Dollars, except share and per share amounts)

The following Management's Discussion and Analysis ("MD&A") as provided by the management of Helium Evolution Incorporated ("HEVI" or the "Company") (formerly Duckhorn Ventures Ltd. ("Duckhorn")) is dated August 23, 2022 and should be read in conjunction with HEVI's condensed interim consolidated financial statements and related notes for the three and six months ended June 30, 2022, three months ended June 30, 2021 and the period from incorporation on January 14, 2021 to June 30, 2021. The reporting currency is Canadian Dollars.

The Company

HEVI is a public company trading on the TSX Venture Exchange ("TSXV") under the symbol HEVI. Duckhorn was incorporated under the British Columbia Business Corporations Act on March 25, 2019.

The Company was formed following the amalgamation of a private company of the same name being Helium Evolution Incorporated ("Helium Evolution Private") and Duckhorn. Helium Evolution Private was incorporated on January 14, 2021 under the Business Corporations Act (Alberta). On March 16, 2022, Helium Evolution Private and Duckhorn entered into an Amalgamation Agreement (the "Amalgamation") resulting in the reverse takeover of Duckhorn by Helium Evolution Private, including a change of control of Duckhorn. Following completion of the Arrangement, Helium Evolution Private shareholders held approximately 96% of the outstanding shares of the Company and the Board of Directors and key management of the Company are substantially the same as Helium Evolution Private. As a result, the transaction has been accounted for as a reverse take-over acquisition with Helium Evolution Private being the acquirer for accounting purposes. Helium Evolution Private is the continuing entity and accordingly, the presentation of the comparative period information is that of Helium Evolution Private.

The Company has significant land holdings in Saskatchewan's "helium fairway" having been granted helium permits by the Government of Saskatchewan covering 5.5 million acres of land. HEVI holds a 100% working interest in these permits, encumbered by a 4.25% government royalty and a 3.0% gross overriding royalty ("GORR").

On November 10, 2021, the Company closed a non-brokered private placement (the "Offering") of subscription receipts (the "Subscription Receipts") for total gross proceeds of \$12.3 million. In connection with the Offering, Helium Evolution Private issued 40,998,636 Subscription Receipts at a price of \$0.30 per Subscription Receipt, with each Subscription Receipt automatically converting into one common share for no additional consideration or action on the part of the holder. Each common share was subsequently exchanged for 1.00542 common shares in the capital of Duckhorn in accordance with the terms of the Agreement.

On June 28, 2022, HEVI closed a strategic investor private placement, brokered and non-brokered private placements (the "Offerings") for total gross proceeds of \$6.9 million (\$6.4 million net of share issuance costs). In connection with the Offerings, HEVI issued 17,295,500 units comprised of 17,295,500 common shares and 5,765,152 warrants.

In conjunction with the strategic investor private placement, the Company entered into a farmout agreement with North American Helium ("NAH") pursuant to which NAH will drill a total of five wells, incurring 100% of the drilling expenditures, on three predetermined blocks of land in Saskatchewan comprising approximately 2.3 million acres located west of the third meridian (the "Blocks"). For each well drilled, NAH will earn an 80% operated interest in the section on which the well was drilled plus nine contiguous sections of land adjoining to the well, up to a maximum of 32,000 acres. The farmout agreement specifically excludes HEVI's current drilling focus in the McCord area. The Company will retain a 20% working interest in the earned lands and each successful well drilled by NAH (the "HEVI Working Interest"). NAH must notify HEVI of its five drilling targets within six months following the execution date of the Farmout Agreement, with a requirement to drill all five wells within 24 months. NAH must drill one well in each of the three Blocks, with no more than three wells drilled in any given Block.

In connection with the farmout agreement, HEVI and NAH have entered into a standstill agreement pursuant to which NAH will be subject to certain standstill restrictions relating to, among other things, the acquisition of HEVI

MANAGEMENT'S DISCUSSION AND ANALYSIS

As at June 30, 2022, for the three and six months ended June 30, 2022, the three months ended June 30, 2021 and period from incorporation on January 14, 2021 to June 30, 2021 (tabular amounts in thousands of Canadian Dollars, except share and per share amounts)

securities for a 24-month period following completion of the Offerings (as defined herein). In addition, HEVI and NAH have entered into a pro-rata participation and board nomination agreement pursuant to which NAH will be permitted to maintain its pro rata undiluted percentage of HEVI Common Shares following completion of the Offering for a 24-month period. Furthermore, should NAH's ownership reach over 10% in the next two years, NAH will have a right to appoint a nominee to the HEVI board of directors.

At the date of this MD&A there are 96,033,974 common shares, 7,418,428 options and 10,786,276 warrants issued and outstanding (see Share Data on page 3).

Basis of Presentation

The condensed interim consolidated financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") as at and for the three and six months ended June 30, 2022, and the comparative three months ended June 30, 2021 and period from incorporation on January 14, 2021 to June 30, 2021, and have been prepared in accordance with the accounting policies and methods of computation as set forth in note 3 of Helium Evolution Private's December 31, 2021 audited financial statements.

The Company makes estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and the revenues and expenses during the reporting period. Management reviews these estimates, including those related to accruals and income taxes at each financial reporting period. Changes in facts and circumstances may result in revised estimates and actual results may differ from these estimates. Readers should be aware that historical results are not necessarily indicative of future performance.

Forward-looking Statements

Certain information included in this MD&A constitutes forward-looking information under applicable securities legislation. Such forward looking statements involve known and unknown risks, uncertainties and other factors that may cause actual results, performance or achievements, or developments in the industry to differ materially from the anticipated results, performance or achievements expressed or implied by such forward-looking statements. Forward looking statements are statements that are not historical facts and are generally, but not always, identified by the words "expects," "plans," "anticipates," "believes," "intends," "estimates," "projects," "potential" and similar expressions, or that events or conditions "will," "would," "may," "could" or "should" occur.

Forward-looking statements in this document include statements regarding the granting of additional permits over lands under application and other statements that are not historical facts. By their nature, forward-looking statements involve known and unknown risks, uncertainties and other factors which may cause our actual results, performance or achievements, or other future events, to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements. Such factors and risks include, among others:

- HEVI may require additional financing from time to time in order to continue its operations; financing may not be available when needed or on terms and conditions acceptable to the Company;
- new laws or regulations could adversely affect the Company's business and results of operations;
- stock markets have experienced volatility that has often been unrelated to the performance of companies which may adversely affect the price of the Company's securities regardless of its operating performance; and
- the granting of additional permits is subject to a competitive process over which the Company has no control.

When relying on forward-looking statements and information to make decisions, investors and others should carefully consider the foregoing factors and risks and other uncertainties and potential events. The Company has assumed that the material factors referred to in the previous paragraphs will not cause such forward-looking

MANAGEMENT'S DISCUSSION AND ANALYSIS

As at June 30, 2022, for the three and six months ended June 30, 2022, the three months ended June 30, 2021 and period from incorporation on January 14, 2021 to June 30, 2021 (tabular amounts in thousands of Canadian Dollars, except share and per share amounts)

statements and information to differ materially from actual results or events. However, the list of these factors is not exhaustive and is subject to change and there can be no assurance that such assumptions will reflect the actual outcome of such items or factors.

Selected Financial Information

Share Data

Number of common shares outstanding	96,033,974
Options ²	7,418,428
Warrants ²	10,786,276
Number of common shares outstanding after exercise of options and warrants	114,238,678

The above share data table outlines the number of common shares, options and warrants outstanding after closing of the transaction detailed in the Company section on page 1. The above share data should be read in conjunction with the June 30, 2022 condensed interim consolidated financial statements.

¹ The weighted average number of common shares outstanding is not increased for outstanding stock options and warrants when the effect is anti-dilutive.

² Options and warrants reflect the 1.00542 exchange ratio in accordance with the terms of the Amalgamation.

MANAGEMENT'S DISCUSSION AND ANALYSIS

As at June 30, 2022, for the three and six months ended June 30, 2022, the three months ended June 30, 2021 and period from incorporation on January 14, 2021 to June 30, 2021 (tabular amounts in thousands of Canadian Dollars, except share and per share amounts)

Outlook

The Company continues to execute its strategy of acquiring a significant land base in Saskatchewan for helium exploration and production. The total permits held by the Company under an initial 3-year term with the Government of Saskatchewan as of June 30, 2022, cover approximately 5.5 million acres.

The Company is undertaking extensive geological and geophysical modelling, which will include the purchase of existing 2D seismic lines, shooting additional 2D seismic lines, seismic reprocessing and interpretation, and well log integration to refine and mold the Company's geological model, and select initial drilling targets. HEVI commenced drilling operations in June 2022, results of which will be further incorporated into the geological model.

The Company expects to provide further guidance on anticipated capital expenditures and potential timing of helium production volumes once additional geological and geophysical work is completed, surface leases are acquired, and service contracts have been signed.

Results of Operations

	Three months ended		Six months ended	Period ended
	June 30, 2022	June 30, 2021	June 30, 2022	June 30, 2021
Exploration and evaluation expense	\$ 833	\$ -	\$ 838	\$ 720
Share based compensation expense	96	-	212	-
Listing expense	-	-	1,142	-
Transaction costs	-	-	96	-
Interest expense (income) (net)	(25)	-	7	-
Depletion and depreciation expense	13	-	25	-
General and administrative expense	425	65	676	65
Net loss	\$ 1,342	\$ 65	\$ 2,996	\$ 785

Exploration and Evaluation (E&E) Expense

	Three months ended		Six months ended	Period ended
	June 30, 2022	June 30, 2021	June 30, 2022	June 30, 2021
Exploration and evaluation expense	\$ 833	\$ -	\$ 838	\$ 720

The Company commenced drilling the 06-12-006-05W3M well in June on its 100% owned and operated McCord property. Drilling costs totaling \$815,000 were capitalized to E&E assets and subsequently transferred to E&E expense as the initial results did not return sufficient quantities of helium to warrant production testing. As such, field operations on both wells were halted to conduct further analysis on the results and the Company's planned exploration program. An additional \$18,000 was recorded to E&E expense in the quarter for future decommissioning obligations associated with the 06-12-006-05W3M well.

Pursuant to a Royalty Agreement between HEVI and certain HEVI founders, a 3.0% GORR on the Company's Saskatchewan helium permits applied for prior to March 30, 2022 was granted to executive members and companies controlled by directors and officers of the Company. As a result, the Company assigned a value of \$nil and \$5,000, respectively, to E&E expense for the three and six months ended June 30, 2022.

MANAGEMENT'S DISCUSSION AND ANALYSIS

As at June 30, 2022, for the three and six months ended June 30, 2022, the three months ended June 30, 2021 and period from incorporation on January 14, 2021 to June 30, 2021 (tabular amounts in thousands of Canadian Dollars, except share and per share amounts)

During the three months and period ended June 30, 2021, the Company incurred \$nil and \$720,000, respectively, of exploration and evaluation expense as settlement of intellectual property obligations and other rights through the issuance of 15,081,300 Class A common shares.

Share Based Compensation Expense

	Three months ended		Six months ended	Period ended
	June 30, 2022	June 30, 2021	June 30, 2022	June 30, 2021
Share based compensation expense	\$ 96	\$ -	\$ 212	\$ -

The Company has an incentive Stock Option Plan (the "Plan") for directors, officers, employees, and consultants, under which the Company may issue stock options to purchase common shares of the Company provided that the amount of incentive stock options which may be granted and outstanding under the Plan at any time shall not exceed 10% of the then issued and outstanding common shares of the Company.

The number of share options issued and outstanding, weighted average exercise price and weighted average remaining life is as follows:

	Number of Options	Weighted Average Exercise Price (\$/share)	Weighted Average Remaining Life (years)
December 31, 2021 ¹	3,418,428	\$ 0.300	4.9
Issued	4,000,000	\$ 0.385	5.0
June 30, 2022	7,418,428	\$ 0.345	4.7

¹ Each option reflects the 1.00542 exchange ratio in accordance with the terms of the Amalgamation

The number of share options exercisable and the weighted average exercise price is as follows:

	Exercisable Options	Weighted Average Exercise Price (\$/share)
December 31, 2021	-	\$ 0.30
June 30, 2022	683,626	\$ 0.30

The fair value of options granted is measured using the Black Scholes pricing model. Measurement inputs include the share price on the measurement date, exercise price of the instrument, expected volatility based on publicly available information for similar companies, weighted average expected life, estimated forfeiture rate, expected dividends, and the risk-free interest rate. The fair value is amortized to share based compensation expense or capitalized to exploration and evaluation assets over the option vesting period with a corresponding offset to contributed surplus.

MANAGEMENT'S DISCUSSION AND ANALYSIS

As at June 30, 2022, for the three and six months ended June 30, 2022, the three months ended June 30, 2021 and period from incorporation on January 14, 2021 to June 30, 2021 (tabular amounts in thousands of Canadian Dollars, except share and per share amounts)

The fair value of the options on the date of issuance was determined using the following Black-Scholes pricing model inputs:

Share price	\$	0.385
Risk-free interest rate		3.10%
Expected life (years)		5
Expected volatility		103%
Forfeiture rate		0%
Expected dividends		Nil
Fair value	\$	0.30

The amount recorded as share-based compensation expense for the three and six months ended June 30, 2022 totaled \$96,000 and \$212,000, respectively (three months and period ended June 30, 2021 – \$nil). Additionally, \$51,000 and \$115,000, respectively, was capitalized to exploration and evaluation assets (three months and period ended June 30, 2021 – \$nil).

Listing Expense

	Three months ended		Six months ended	Period ended
	June 30, 2022	June 30, 2021	June 30, 2022	June 30, 2021
Listing expense	\$ -	\$ -	\$ 1,142	\$ -

On March 16, 2022, Duckhorn acquired all the issued and outstanding common shares through a wholly owned subsidiary of the Company that previously amalgamated with Helium Evolution Private, which resulted in a reverse takeover of the Company by the former shareholders of Helium Evolution Private.

In connection with the Amalgamation and pursuant to the terms of the Amalgamation, Duckhorn changed its name to Helium Evolution Incorporated and issued 75,405,141 common shares to the shareholders of Helium Evolution Private. Immediately following the Amalgamation there were 78,738,474 common shares issued and outstanding, with the former Helium Evolution Private shareholders holding approximately 96% of the issued and outstanding common shares, and the board of directors and key management of the Company being substantially the same as Helium Evolution Private. As a result of the transaction, former Duckhorn shareholders received 3,333,333 common shares in the new entity.

The Amalgamation was treated as a reverse takeover (“RTO”) for accounting purposes based on the terms of the Amalgamation. In accordance with IFRS, Duckhorn did not meet the definition of a business for accounting purposes. Therefore, the RTO does not constitute a business combination but a capital transaction of Duckhorn in substance with Helium Evolution Private being the continuing entity from an accounting perspective. As a result of the excess of the purchase price being greater than the net liabilities, the Company has recorded \$1,142,000 of listing expenses in the profit and loss.

MANAGEMENT'S DISCUSSION AND ANALYSIS

As at June 30, 2022, for the three and six months ended June 30, 2022, the three months ended June 30, 2021 and period from incorporation on January 14, 2021 to June 30, 2021 (tabular amounts in thousands of Canadian Dollars, except share and per share amounts)

The fair value of the net assets (liabilities) that were acquired pursuant to the RTO is as follows:

Cash	\$	-
Accounts receivable		7
Accounts payable and accrued liabilities		(149)
Net assets (liabilities) acquired	\$	(142)

Fair value of the common shares of Duckhorn (3,333,333 common shares)	\$	1,000
Total consideration	\$	1,000

Excess of purchase price consideration over net liabilities acquired (listing expense)	\$	1,142
---	-----------	--------------

Transaction Costs

	Three months ended		Six months ended	Period ended
	June 30, 2022	June 30, 2021	June 30, 2022	June 30, 2021
Transaction costs	\$ -	\$ -	\$ 96	\$ -

Acquisition costs incurred by the Company in the amount of \$96,000 have been excluded from consideration paid and were recognized as transaction costs in the six months ended June 30, 2022.

Interest Expense (Income) (net)

	Three months ended		Six months ended	Period ended
	June 30, 2022	June 30, 2021	June 30, 2022	June 30, 2021
Interest expense (income) (net)	\$ (25)	\$ -	\$ 7	\$ -

Interest expense (income) recorded in the three and six months ended June 30, 2022 of \$(25,000) and \$7,000, respectively, was incurred on a short-term loan that was repaid during in the first quarter of 2022 and the Company's lease obligations, or credited as a result of investing excess cash balances into redeemable short-term Guaranteed Investment Certificates ("GIC" or "GICs") with interest rates ranging from 0.8% to 3.0% depending on the term (three months and period ended June 30, 2021, \$nil).

Depletion and depreciation Expense

	Three months ended		Six months ended	Period ended
	June 30, 2022	June 30, 2021	June 30, 2022	June 30, 2021
Depletion and depreciation expense	\$ 13	\$ -	\$ 25	\$ -

Depletion and depreciation expense in the amount of \$13,000 and \$25,000, respectively, was recorded in the three and six months ended June 30, 2022 and is related to the Company's office equipment and right-of-use assets (three months and period ended June 30, 2021, \$nil). Office equipment is depreciated on a straight-line basis over a period of 2 years and the Company's right-of-use assets are depreciated over the term of the Company's office and office equipment leases.

MANAGEMENT'S DISCUSSION AND ANALYSIS

As at June 30, 2022, for the three and six months ended June 30, 2022, the three months ended June 30, 2021 and period from incorporation on January 14, 2021 to June 30, 2021 (tabular amounts in thousands of Canadian Dollars, except share and per share amounts)

General and Administrative Expense

	Three months ended		Six months ended	Period ended
	June 30, 2022	June 30, 2021	June 30, 2022	June 30, 2021
General and administrative expense	\$ 433	\$ 65	\$ 634	\$ 65
Overheard recoveries	(8)	-	(8)	-
General and administrative expense	\$ 425	\$ 65	\$ 626	\$ 65

General and administrative expenses for the three and six months ended June 30, 2022 totaled \$425,000 and \$626,000, respectively (three months and period ended June 30, 2021 – \$65,000). The Company has incurred costs associated with startup of a new entity including management salaries, consulting fees, software fees, office related expenses, legal and regulatory fees, and marketing and investor relations.

Capital Expenditures

The following summarizes the Company's capital spending:

	Three months ended		Six months ended	Period ended
	June 30, 2022	June 30, 2021	June 30, 2022	June 30, 2021
Seismic	\$ 62	\$ 129	\$ 808	\$ 129
Geological and geophysical	93	-	213	-
Drilling	896	-	901	-
Helium permits	7	16	77	16
Office equipment	-	-	5	-
Total	\$ 1,058	\$ 145	\$ 2,004	\$ 145

Capital spending for the three and six months ended June 30, 2022 totaled \$1.1 million and \$2.0 million, respectively (three months and period ended June 30, 2021 – \$145,000). The Company commenced drilling of its first helium exploration well at 06-12-006-05W3M as previously noted on page 4, continued evaluating its existing prospects on helium permits granted to HEVI, and acquired additional helium permits in Saskatchewan.

Share Capital

The following table details the number of common shares issued and outstanding as at June 30, 2022:

	Number of Shares	Equity
Class A Common Shares		
December 31, 2021 ¹	34,184,280	\$ 1,915
Shares issued in exchange for subscription receipts ²	41,220,861	12,300
Shares issued as part of Duckhorn reverse takeover ³	3,333,333	1,000
Shares issued as part of June 28, 2022 private placement ⁴	17,295,500	6,074
Share issuance costs	-	(2,015)
June 30, 2022	96,033,974	\$ 19,274

¹ In conjunction with the closing of the Amalgamation as detailed in note 3, each common share, option and warrant in Helium Evolution Private was subsequently exchanged for 1.00542 common shares in the capital of the Company. The number of common shares have been restated to reflect the exchange ratio.

MANAGEMENT'S DISCUSSION AND ANALYSIS

As at June 30, 2022, for the three and six months ended June 30, 2022, the three months ended June 30, 2021 and period from incorporation on January 14, 2021 to June 30, 2021 (tabular amounts in thousands of Canadian Dollars, except share and per share amounts)

² On November 10, 2021, Helium Evolution Private closed a non-brokered private placement (the "Offering") of subscription receipts (the "Subscription Receipts") for total gross proceeds of \$12.3 million. In connection with the Offering, Helium Evolution Private issued 40,998,636 Subscription Receipts at a price of \$0.30 per Subscription Receipt, with each Subscription Receipt automatically converting into one common share for no additional consideration or action on the part of the holder. Each common share was subsequently exchanged for 1.00542 common shares in the capital of Duckhorn in accordance with the terms of the Amalgamation. As at December 31, 2021 the Subscription Receipts were included in restricted cash and subscription receipts payable.

³ See Listing Expense details on page 6 of the MD&A.

⁴ On June 28, 2022, HEVI closed a strategic investor private placement, brokered and non-brokered private placements (the "Offerings") for total gross proceeds of \$6.9 million (\$6.4 million net of share issuance costs). \$6.1 million of the gross proceeds (\$5.5 million net of share issuance costs) was allocated to share capital and \$0.8 million was allocated to warrant capital. In connection with the Offerings, HEVI issued 17,295,500 units comprised of 1 common share and one-third of a warrant.

The following table details the number of warrants issued and outstanding as at June 30, 2022:

	Number of Warrants	Equity
December 31, 2021 ¹	4,846,124	\$ 552
Warrants issued as part of June 28, 2022 private placement ²	5,765,152	844
Warrants issued as part of June 28, 2022 private placement ³	175,000	28
June 30, 2022¹	10,786,276	\$ 1,424

¹ Each warrant reflects the 1.00542 exchange ratio in accordance with the Amalgamation

² On June 28, 2022, HEVI closed a strategic investor private placement, brokered and non-brokered private placements (the "Offerings") for total gross proceeds of \$6.9 million. In connection with the Offerings, HEVI issued 17,295,500 units comprised of 1 common share and one-third of a warrant. The warrants were valued using the Black-Scholes model and the following inputs: exercise price of \$0.70 per share, expected term of 24 months, annualized volatility based on publicly traded peer companies of 103%, a risk-free rate of 3.1%, and zero expected dividends. The weighted average Black-Scholes fair value is \$0.17 per warrant, with the relative fair value ascribed to the warrants issued as part of the financing totaling \$844,000.

³ On June 28, 2022, HEVI issued 175,000 warrants to a finder in connection with the strategic investor private placement. The warrants were valued using the Black-Scholes model and the following inputs: exercise price of \$0.70 per share, expected term of 24 months, annualized volatility based on publicly traded peer companies of 103%, a risk-free rate of 3.1%, and zero expected dividends. The weighted average Black-Scholes fair value is \$0.17 per warrant.

The number of share options issued and outstanding, weighted average exercise price and weighted average remaining life is as follows:

	Number of Options	Weighted Average Exercise Price (\$/share)	Weighted Average Remaining Life (years)
December 31, 2021 ¹	3,418,428	\$ 0.300	4.9
Issued	4,000,000	\$ 0.385	5.0
June 30, 2022	7,418,428	\$ 0.345	4.7

MANAGEMENT'S DISCUSSION AND ANALYSIS

As at June 30, 2022, for the three and six months ended June 30, 2022, the three months ended June 30, 2021 and period from incorporation on January 14, 2021 to June 30, 2021 (tabular amounts in thousands of Canadian Dollars, except share and per share amounts)

¹ Each option reflects the 1.00542 exchange ratio in accordance with the terms of the Amalgamation

The number of share options exercisable and the weighted average exercise price is as follows:

	Exercisable Options	Weighted Average Exercise Price (\$/share)
December 31, 2021	-	\$ 0.30
June 30, 2022	683,626	\$ 0.30

The fair value of options granted is measured using the Black Scholes pricing model. Measurement inputs include the share price on the measurement date, exercise price of the instrument, expected volatility based on publicly available information for similar companies, weighted average expected life, estimated forfeiture rate, expected dividends, and the risk-free interest rate. The fair value is amortized to share based compensation expense or capitalized to exploration and evaluation assets over the option vesting period with a corresponding offset to contributed surplus.

The fair value of the options on the date of issuance was determined using the following Black-Scholes pricing model inputs:

Share price	\$	0.385
Risk-free interest rate		3.10%
Expected life (years)		5
Expected volatility		103%
Forfeiture rate		0%
Expected dividends		Nil
Fair value	\$	0.30

Capital Funding and Resources

As at June 30, 2022, the Company's working capital balance was \$14,803,000 including cash of \$14,216,000.

MANAGEMENT'S DISCUSSION AND ANALYSIS

As at June 30, 2022, for the three and six months ended June 30, 2022, the three months ended June 30, 2021 and period from incorporation on January 14, 2021 to June 30, 2021 (tabular amounts in thousands of Canadian Dollars, except share and per share amounts)

Financial Capacity

At June 30, 2022, the Company's working capital balance was \$14,803,000. The Company has considerable flexibility in managing capital given the terms of helium permits granted by the Government of Saskatchewan. Any commitments related to the lease and permit terms are incorporated into the capital budget.

Financial Risk Management

The Company's activities expose it to a variety of financial risks that arise as a result of its exploration, development, production, and financing activities such as:

- Credit risk
- Market risk
- Liquidity risk

HEVI is exposed to normal market risks inherent in the helium business, including, but not limited to, commodity price risk, foreign currency rate risk, credit risk, liquidity risk and interest rate risk. The Company seeks to mitigate these risks through various business processes and management controls and from time to time by using various derivative financial instruments and physical delivery sales contracts.

(a) Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations and arises principally from the Company's cash and accounts receivable.

The carrying amount of cash and cash equivalents and accounts receivable represents the maximum credit exposure. As at June 30, 2022, the Company's receivables consisted of sales taxes paid on general and administrative and capital expenditures and funds owing on the June 28, 2022 private placement.

Cash and cash equivalents are held by a level 1 financial institution.

(b) Market risk

Market risk is the risk that changes in market conditions, such as commodity prices, foreign exchange rates and interest rates will affect the Company's income or the value of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while maximizing the Company's return.

Interest rate risk:

Interest rate risk is the risk that future cash flows will fluctuate as a result of changes in market interest rates. The Company does not have any interest rate exposure as at June 30, 2022.

Foreign exchange risk:

Helium prices are based on US dollar denominated commodity prices. As a result, the Canadian dollar price received by the Company will be affected by the Canadian and US dollar exchange rates once helium revenues are realized.

(c) Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting obligations associated with its financial liabilities. The Company's financial liabilities consist of accounts payable and accrued liabilities and subscription receipts payable.

MANAGEMENT'S DISCUSSION AND ANALYSIS

As at June 30, 2022, for the three and six months ended June 30, 2022, the three months ended June 30, 2021 and period from incorporation on January 14, 2021 to June 30, 2021 (tabular amounts in thousands of Canadian Dollars, except share and per share amounts)

Accounts payable consists of invoices payable to trade suppliers for general and administrative activities and exploration and evaluation expenditures. The Company processes invoices within a normal payment period. Accounts payable have contractual maturities of less than one year. The Company maintains and monitors a certain level of cash which is used to finance all operating and capital expenditures.

HEVI anticipates having adequate funds flow to meet its contractual obligations and commitments and discharge its liabilities as they come due. In order to ensure it has sufficient liquidity, the Company may access capital markets. Management anticipates that these efforts will provide enough financial flexibility to meet the Company's contractual obligations and commitments and discharge its liabilities, until it generates cashflow from operations.

Capital Management

The Company's capital structure includes shareholders' equity and working capital. HEVI's general policy is to maintain a strong financial position to allow for exploration of its existing land base. The Company's objective is to maintain a capital structure that allows it to finance its business strategy using primarily internally generated cash flow and equity markets, and to optimize the use of its capital to provide an appropriate investment return to its shareholders.

HEVI monitors its capital structure and makes adjustments on an ongoing basis in order to maintain the flexibility needed to achieve the Company's long-term objectives. To manage its capital structure, the Company may adjust capital spending, issue new equity, issue new debt, or obtain alternative financing.

The Company is in the process of exploring its helium properties and has not yet determined whether these properties contain deposits that are economically recoverable. As the Company does not yet have cash flow from operations, it must rely on equity financing to fund operations. To date the Company's main source of funding has been the issuance of equity and warrant securities for cash through private placements to sophisticated investors.

The Company's continuing operations and underlying value and recoverability of the amounts shown for exploration and evaluation assets are entirely dependent upon the existence of economically recoverable reserves, the ability of the Company to obtain the necessary financing to complete the exploration and development of its helium property interests and on future profitable production or proceeds from the disposition of the helium property interests.

As at June 30, 2022, the Company had positive working capital of \$14,803,000.

These and other factors may adversely affect the Company's liquidity and ability to generate income and future cash flows.

Commitments

The Company holds helium exploration permits in Saskatchewan with an initial 3-year term. The Company has annual lease expenditure commitments as follows: 2022 – \$112,000, 2023 – \$209,000, 2024 – \$449,000 and annual permit expenditure commitments as follows: 2022 – \$808,000, 2023 – \$1,322,000, and 2024 – \$2,035,000. Permit expenditures can be grouped and carried forward to future years if the expenditure amount is greater than the minimum expenditure required. If the above commitments are not satisfied, the Company will relinquish the associated helium permits.

The Company entered into a 2-year office lease agreement, commencing November 1, 2021, and ending October 31, 2023, and has entered into office equipment leases. The lease commitments as at June 30, 2022 are as follows:

	1 year	2 years	3 years	> 3 years	Total
Lease obligations	\$ 20	\$ 14	\$ 4	\$ 3	\$ 40

MANAGEMENT'S DISCUSSION AND ANALYSIS

As at June 30, 2022, for the three and six months ended June 30, 2022, the three months ended June 30, 2021 and period from incorporation on January 14, 2021 to June 30, 2021 (tabular amounts in thousands of Canadian Dollars, except share and per share amounts)

Related Party Transactions

The following table summarizes transactions with related parties:

	June 30, 2022	June 30, 2021
Exploration and evaluation expense – management	\$ 5	\$ 720

Under the terms of the January 14, 2021 share issuance to certain management and directors, the Company recorded \$720,000 as pre-exploration expenditure under E&E expense.

Pursuant to a Royalty Agreement between HEVI and certain HEVI founders, a 3.0% gross overriding royalty (“GORR”) on the Company’s Saskatchewan helium permits applied for prior to March 30, 2022 was granted to executive members and companies controlled by directors and officers of the Company. As a result, the Company assigned a value of \$5,000 to E&E expense.

On January 12, 2022, the Company entered into a Secured Promissory Note (the “Promissory Note”) with a director of the Company in the amount of \$1.5 million with an annualized interest rate of 10 percent. The note was secured by a General Security Agreement between the parties providing the lending party with security over the assets of the Company. The Promissory Note was repaid in full on March 18, 2022, along with total interest of \$37,500, and the security was subsequently discharged.

Use of Judgements and Key Sources of Estimation Uncertainty

The timely preparation of the financial statements in conformity with IFRS requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, disclosure of any contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses for the year. These estimates are subject to measurement uncertainty and the effect on the financial statements of changes in these estimates could be material. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected.

Critical Judgments

(i) Identification of cash generating units (“CGUs”)

The Company’s assets are aggregated into CGUs for the purpose of calculating impairment. CGUs are based on an assessment of the unit’s ability to generate independent cash inflows. The determination of these CGUs was based on management’s judgment regarding shared infrastructure, geographical proximity, and similar exposure to market risk and materiality.

(ii) Exploration and evaluation (“E&E”) assets

The application of the Company’s accounting policy for E&E requires management to make certain judgments as to future events and circumstances as to whether economic quantities of reserves have been found in assessing economic and technical feasibility.

(iii) Deferred income taxes

Judgments are made by management to determine the likelihood of whether deferred income tax assets at the end of the reporting period will be realized from future taxable income. To the extent that assumptions regarding future profitability change, there can be an increase or decrease in the amounts recognized in respect of deferred tax assets as well as the amounts recognized in earnings or loss in the period in which the change occurs.

MANAGEMENT'S DISCUSSION AND ANALYSIS

As at June 30, 2022, for the three and six months ended June 30, 2022, the three months ended June 30, 2021 and period from incorporation on January 14, 2021 to June 30, 2021 (tabular amounts in thousands of Canadian Dollars, except share and per share amounts)

(iv) Lease accounting regarding incremental borrowing rate and lease term

The incremental borrowing rates are based on judgments including economic environment, term, currency, and the underlying risk inherent to the asset. The carrying balance of the right-of-use assets, lease obligations, and the resulting interest and depletion and depreciation expense, may differ due to changes in the market conditions and lease term. Lease terms are based on assumptions regarding extension terms that allow for operational flexibility and future market conditions.

Key Sources of Estimation Uncertainty

(i) Taxation

Tax provisions are based on enacted or substantively enacted laws. Changes in those laws could affect amounts recognized in profit or loss both in the period of change, which would include any impact on cumulative provisions, and in future periods. Deferred tax assets, if any, are recognized only to the extent it is considered probable that those assets will be recoverable. This involves an assessment of when those deferred tax assets are likely to reverse.

(ii) Warrants

The estimated fair value of the warrants and share options as part of the share and warrant issuance and share option grants uses the Black-Scholes pricing model incorporating assumptions on volatility, risk-free interest rate, and the expected term.

Off Balance Sheet Arrangements

The Company had no material off-balance sheet arrangements outstanding as at June 30, 2022 other than those previously noted.

Financial Instruments

Financial instruments of the Company include cash, restricted cash, accounts receivable, accounts payable and accrued liabilities, and subscription receipts payable. The carrying values of the financial instruments approximate their fair values due to their relatively short periods to maturity.

Business Risks and Uncertainties

In March 2020, the World Health Organization declared coronavirus COVID-19 a global pandemic. This contagious disease outbreak, which has continued to spread, and any related adverse public health developments, have adversely affected workforces, economies, and financial markets globally, potentially leading to an economic downturn. It is not possible for the Company to predict the duration or magnitude of the adverse results of the outbreak and its effects on the Company's business or results of operations at this time.

The Company's business of exploring for mineral resources involves a variety of operational, financial, and regulatory risks that are typical in the natural resource industry. The Company was only recently incorporated, has not commenced commercial operations, and has no proven history of performance, earnings, or success. There is no guarantee that the Company will ever be able to achieve profitable results or successfully execute its business plan, and the Company's common shares must be considered speculative, primarily due to the nature of the Company's business and early stage of development.

The Company's property interests are located in Canada. Any changes in governmental laws, regulations, economic conditions or shifts in political attitudes or stability are beyond the control of the Company and may adversely affect its business. In addition, shortages of skilled labour and deficiencies in infrastructure may negatively influence costs of exploration and development.

MANAGEMENT'S DISCUSSION AND ANALYSIS

As at June 30, 2022, for the three and six months ended June 30, 2022, the three months ended June 30, 2021 and period from incorporation on January 14, 2021 to June 30, 2021 (tabular amounts in thousands of Canadian Dollars, except share and per share amounts)

The success of the Company is dependent, among other things, on obtaining sufficient funding to enable the Company to explore and develop its property interests or to fulfil its obligations under applicable agreements. There can be no assurance that the Company will be able to obtain adequate financing in the future or that the terms of such financing will be favourable. Failure to obtain such additional financing could result in delay or indefinite postponement of further exploration and development of new projects with the possible loss of such properties. The Company will require new capital to continue to operate its business and to continue with exploration on its properties, and there is no assurance that capital will be available when needed, if at all. It is likely such additional capital will be raised through the issuance of additional equity which will result in dilution to the Company's shareholders.

The operations of the Company may require licenses and permits from various governmental authorities. There can be no assurance that the Company will be able to obtain all necessary licenses and permits that may be required to conduct exploration and development work at its projects. Failure to obtain such licenses and permits may adversely affect the Company's business as the Company would be unable to legally conduct its intended exploration work, which may result in it losing its interest in the subject property.

Even if the Company's exploration programs are successful, factors beyond the control of the Company may affect the marketability of any resources discovered. The marketability and price of helium which may be produced or acquired by the Company will be affected by numerous factors beyond the control of the Company. These other factors include delivery uncertainties related to the proximity of its reserves to processing facilities and extensive government regulation relating to price, taxes, royalties, allowable production land tenure, the import and export of minerals and many other aspects of the mineral extraction business. Declines in resource prices may have a negative effect on the Company.

The resource industry is intensely competitive, and the Company must compete in all aspects of its operations with a substantial number of other corporations which have greater technical or financial resources. The Company may be unable to acquire additional attractive resource properties on terms it considers to be acceptable.

The Company's operations are subject to environmental regulations promulgated by government agencies from time to time. Environmental legislation provides for restrictions and prohibitions of spills, release or emission of various substances produced in association with certain mineral extraction industry operations, which could result in environmental pollution. Failure to comply with such legislation may result in the imposition of fines and penalties. In addition, certain types of operations require submissions to and approval of environmental impact assessments. Environmental legislation is evolving in a manner which means stricter standards and enforcement, and fines and penalties for non-compliance are becoming more stringent. Environmental assessments of proposed projects carry a heightened degree of responsibility for companies and directors, officers, and employees. The cost of compliance with changes in governmental regulations has a potential to reduce the profitability of operations. The Company intends to fully comply with all environmental regulations.

Certain directors and officers of the Company are also directors, officers and shareholders of other natural resource or public companies, as a result of which they may find themselves in a position where their duty to another company conflicts with their duty to the Company. There is no assurance that any such conflicts will be resolved in favour of the Company. If any of such conflicts are not resolved in favour of the Company, the Company may be adversely affected.

Notes to the Condensed Interim Consolidated Financial Statements

As at June 30, 2022, for the three and six months ended June 30, 2022,

three months ended June 30, 2021 and the period from incorporation on January 14, 2021 to June 30, 2021

(tabular amounts expressed in thousands of Canadian Dollars, except number of shares and warrants, unaudited)

1. Organization and Nature of the Business

Helium Evolution Incorporated (“HEVI” or the “Company”) (formerly Duckhorn Ventures Ltd. (“Duckhorn”)) is a public company trading on the TSX Venture Exchange (“TSXV”) under the symbol HEVI. Duckhorn was incorporated under the British Columbia Business Corporations Act on March 25, 2019.

The Company was formed following the amalgamation of a private company of the same name being Helium Evolution Incorporated (“Helium Evolution Private”) and Duckhorn. Helium Evolution Private was incorporated on January 14, 2021 under the Business Corporations Act (Alberta). On March 16, 2022, Helium Evolution Private and Duckhorn entered into an Amalgamation Agreement (the “Amalgamation”) resulting in the reverse takeover of Duckhorn by Helium Evolution Private, including a change of control of Duckhorn. Following completion of the Arrangement, Helium Evolution Private shareholders held approximately 96% of the outstanding shares of the Company and the Board of Directors and key management of the Company are substantially the same as Helium Evolution Private. As a result, the transaction has been accounted for as a reverse acquisition with Helium Evolution Private being the acquirer for accounting purposes. Helium Evolution Private is the continuing entity and accordingly, the presentation of the comparative period information is that of Helium Evolution Private (see note 3).

Helium Evolution Incorporated commenced trading on the TSXV on March 30, 2022.

The Company’s principal and office address and address of its records is 400, 505 – 3 Street SW, Calgary, Alberta, Canada, T2P 3B6.

The Company is in the early stages of exploration for helium as a resource and has not yet determined whether its helium properties contain deposits that are economically recoverable. The condensed interim consolidated financial statements of the Company and comprised of the accounts of Helium Evolution Incorporated and its wholly owned subsidiary 2416227 Alberta Ltd. (formerly Helium Evolution Private).

2. Basis of Preparation

The unaudited condensed interim consolidated financial statements have been prepared in accordance with IAS 34 – Interim Financial Reporting of the International Financial Reporting Standards (“IFRS”). The unaudited condensed interim consolidated financial statements have been prepared in accordance with IFRS accounting policies and methods of computation as set forth in Helium Evolution Private’s annual financial statements for the period ended December 31, 2021, with the exception of certain disclosures that are normally required to be included in annual financial statements which have been condensed or omitted in the unaudited condensed interim consolidated financial statements. The unaudited condensed interim consolidated financial statements should be read in conjunction with Helium Evolution Private’s annual financial statements for the period ended December 31, 2021.

The Company’s unaudited condensed interim consolidated financial statements are expressed in thousands of Canadian Dollars, unless otherwise stated. The presentation currency is Canadian dollars (“CAD”), which is the functional currency of the Company and its subsidiary.

These unaudited condensed interim consolidated financial statements have been prepared using the historical cost convention on an accrual basis except for, when outstanding, certain financial instruments which have been measured at fair value. In the opinion of management, all adjustments, including accruals, considered necessary for a fair presentation have been included.

The unaudited condensed interim consolidated financial statements were authorized for issue by the Board of Directors on August 23, 2022.

Helium Evolution Incorporated (formerly Duckhorn Ventures Ltd.)

Notes to the Condensed Interim Consolidated Financial Statements

As at June 30, 2022, for the three and six months ended June 30, 2022,

three months ended June 30, 2021 and the period from incorporation on January 14, 2021 to June 30, 2021

(tabular amounts expressed in thousands of Canadian Dollars, except number of shares and warrants, unaudited)

Climate Reporting Regulations

Climate and emission related reporting standards are constantly evolving. The International Sustainability Standards Board has issued an IFRS Sustainability Disclosure Standard with the goal to develop sustainability disclosure standards that are globally consistent, comparable, and reliable. The Canadian Securities Administrators have also issued a proposed National Instrument 51-107 Disclosure of Climate-related Matters which details the additional reporting requirements for Canadian Public Companies. If the Company is not able to meet future sustainability reporting requirements of regulators or current and future expectations of investors, insurance providers, or other stakeholders, its business and ability to attract and retain skilled employees, obtain regulatory permits, licenses, registrations, approvals, and authorizations from various governmental authorities, and raise capital may be adversely affected. The Company continues to monitor progress on these reporting requirements and have not yet quantified the cost to comply with these standards.

3. Reverse Takeover (“RTO”) Transaction

On March 16, 2022, Duckhorn acquired all the issued and outstanding common shares through a wholly owned subsidiary of the Company that amalgamated with Helium Evolution Private, which resulted in a reverse takeover of the Company by the former shareholders of Helium Evolution Private (the “Amalgamation”).

In connection with the Amalgamation and pursuant to the terms of the Amalgamation, Duckhorn changed its name to Helium Evolution Incorporated and issued 75,405,141 common shares to the shareholders of Helium Evolution Private. Immediately following the Amalgamation there were 78,738,474 common shares issued and outstanding, with the former Helium Evolution Private shareholders holding approximately 96% of the issued and outstanding common shares, and the Board of Directors and key management of the Company being substantially the same as Helium Evolution Private.

The Amalgamation was treated as an RTO for accounting purposes based on the terms of the Amalgamation. In accordance with IFRS, Duckhorn did not meet the definition of a business for accounting purposes. Therefore, the RTO does not constitute a business combination but a capital transaction of Duckhorn in substance with Helium Evolution Private being the continuing entity from an accounting perspective.

The fair value of the net assets (liabilities) that were acquired pursuant to the RTO was as follows:

Net assets (liabilities) acquired	
Cash	\$ -
Accounts receivable	7
Accounts payable and accrued liabilities	(149)
Net assets (liabilities) acquired	\$ (142)
Consideration	
Fair value of the common shares of Duckhorn (3,333,333 common shares)	\$ 1,000
Total consideration	\$ 1,000
Excess of purchase price consideration over net liabilities acquired, being a listing expense	\$ 1,142

Acquisition costs of \$96,000 were incurred by the Company and have been excluded from the above consideration paid. These costs have been recorded as transaction costs in the Company’s condensed interim consolidated statement of loss and comprehensive loss for the six months ended June 30, 2022.

Helium Evolution Incorporated (formerly Duckhorn Ventures Ltd.)

Notes to the Condensed Interim Consolidated Financial Statements

As at June 30, 2022, for the three and six months ended June 30, 2022,

three months ended June 30, 2021 and the period from incorporation on January 14, 2021 to June 30, 2021

(tabular amounts expressed in thousands of Canadian Dollars, except number of shares and warrants, unaudited)

4. Property, Plant and Equipment ("PP&E") Assets

Cost	Total
Balance, January 14, 2021	\$ -
Additions	58
Right-of-use asset additions	32
Balance, December 31, 2021	90
Additions	5
Right-of-use asset additions	17
Balance, June 30, 2022	\$ 112

Accumulated depletion and depreciation	Total
Balance, January 14, 2021	\$ -
Depletion and depreciation	10
Balance, December 31, 2021	10
Depletion and depreciation	25
Balance, June 30, 2022	\$ 35

Net book value	Total
Balance, December 31, 2021	\$ 80
Balance, June 30, 2022	\$ 77

As at June 30, 2022, PP&E is comprised of office equipment with a net book value of \$40,000 (December 31, 2021 – \$51,000) and right-of-use assets with a net book value of \$37,000 (December 31, 2021 – \$29,000).

5. Exploration and Evaluation ("E&E") Assets

Cost	Total
Balance, January 14, 2021	\$ -
Additions	562
Balance, December 31, 2021	562
Additions	2,127
Transferred to E&E expense	(833)
Balance, June 30, 2022	\$ 1,856

The Company holds helium exploration permits in Saskatchewan with an initial 3-year term. The June 30, 2022 additions include \$115,000 of non-cash share-based compensation (December 31, 2021 – \$29,000) and \$18,000 of non-cash decommissioning obligations (December 31, 2021 – \$nil). \$833,000 of E&E assets were transferred to E&E expense in 2022 due to the overall results of the drilling program.

The Company has annual lease expenditure commitments as follows: 2022 (remaining) – \$46,000, 2023 – \$209,000, 2024 – \$449,000 and annual permit expenditure commitments as follows: 2022 (remaining) – \$152,000, 2023 – \$1,322,000, and 2024 – \$2,035,000. Permit expenditures can be grouped and carried forward to future years if the expenditure amount is greater than the minimum expenditure required. If the above commitments are not satisfied, the Company will relinquish the associated helium permits.

Helium Evolution Incorporated (formerly Duckhorn Ventures Ltd.)

Notes to the Condensed Interim Consolidated Financial Statements

As at June 30, 2022, for the three and six months ended June 30, 2022,

three months ended June 30, 2021 and the period from incorporation on January 14, 2021 to June 30, 2021

(tabular amounts expressed in thousands of Canadian Dollars, except number of shares and warrants, unaudited)

Pursuant to a Royalty Agreement between HEVI and certain HEVI founders, a 3.0% gross overriding royalty (“GORR”) on the Company’s Saskatchewan helium permits applied for prior to March 30, 2022 was granted to executive members and companies controlled by directors and officers of the Company. As a result, the Company assigned a value of \$nil and \$5,000, respectively, to E&E expense for the three and six months ended June 30, 2022 (three months and period ended June 30, 2021 – \$nil and \$720,000, respectively).

6. Lease Obligations

	Total
Balance, January 14, 2021	\$ -
Additions	32
Interest expense	1
Balance, December 31, 2021	\$ 33
Additions	17
Lease payments	(10)
Balance, June 30, 2022	\$ 40
Current portion of lease obligations	\$ 20
Long-term portion of lease obligations	\$ 20

	June 30, 2022
Lease payments	\$ 10
Interest payments	(1)
Total cash outflow	\$ 9

The Company has lease liabilities for contracts related to office space and office equipment. Lease terms are negotiated on an individual basis and contain a wide range of different terms and conditions. The discount rate applied during the six months ended June 30, 2022 was 10.0 percent.

7. Decommissioning Obligations

	June 30, 2022	December 31, 2021
Decommissioning obligations, beginning of period	\$ -	\$ -
Obligations incurred	18	-
Decommissioning obligations, end of period	\$ 18	\$ -

The Company’s decommissioning obligations result from its ownership interest in helium assets currently comprised of well sites. The total decommissioning obligation is estimated based on the Company’s net ownership interest in all wells, estimated costs to reclaim and abandon these wells and the estimated timing of the costs to be incurred in future years.

The following significant assumptions were used to estimate the decommissioning obligations:

	June 30, 2022	December 31, 2021
Undiscounted, uninflated cash flows	\$ 19	\$ -
Risk free rate	3.10%	-
Inflation rate	1.74%	-
Timing of cash flows	4 years	-

Helium Evolution Incorporated (formerly Duckhorn Ventures Ltd.)

Notes to the Condensed Interim Consolidated Financial Statements

As at June 30, 2022, for the three and six months ended June 30, 2022,

three months ended June 30, 2021 and the period from incorporation on January 14, 2021 to June 30, 2021

(tabular amounts expressed in thousands of Canadian Dollars, except number of shares and warrants, unaudited)

8. Share Capital

The authorized capital of HEVI consists of an unlimited number of common and preferred shares without par value.

The following table details the number of common shares issued and outstanding as at June 30, 2022:

	Number of Class A Common Shares	Share Equity
Balance, December 31, 2021 ¹	34,184,280	\$ 1,915
Shares issued in exchange for subscription receipts ²	41,220,861	12,300
Shares issued as part of Duckhorn reverse takeover (see note 3)	3,333,333	1,000
Shares issued as part of June 28, 2022 private placement ³	17,295,500	6,074
Share issuance costs	-	(2,015)
Balance, June 30, 2022	96,033,974	\$ 19,274

¹ In conjunction with the closing of the Amalgamation as detailed in note 3, each common share, option and warrant in Helium Evolution Private was subsequently exchanged for 1.00542 common shares in the capital of the Company. The number of common shares have been restated to reflect the exchange ratio.

² On November 10, 2021, Helium Evolution Private closed a non-brokered private placement (the "Offering") of subscription receipts (the "Subscription Receipts") for total gross proceeds of \$12.3 million. In connection with the Offering, Helium Evolution Private issued 40,998,636 Subscription Receipts at a price of \$0.30 per Subscription Receipt, with each Subscription Receipt automatically converting into one common share for no additional consideration or action on the part of the holder. Each common share was subsequently exchanged for 1.00542 common shares in the capital of Duckhorn in accordance with the terms of the Amalgamation. As at December 31, 2021 the Subscription Receipts were included in restricted cash and subscription receipts payable.

³ On June 28, 2022, HEVI closed a strategic investor private placement, brokered and non-brokered private placements (the "Offerings") for total gross proceeds of \$6.9 million (\$6.4 million net of share issuance costs). \$6.1 million of the gross proceeds (\$5.5 million net of share issuance costs) was allocated to share capital and \$0.8 million was allocated to warrant capital. In connection with the Offerings, HEVI issued 17,295,500 units comprised of 1 common share and one-third of a warrant.

The following table details the number of warrants issued and outstanding at June 30, 2022:

	Number of Warrants	Warrant Equity
Balance, December 31, 2021 ¹	4,846,124	\$ 552
Warrants issued as part of June 28, 2022 private placement ²	5,765,152	844
Warrants issued as part of June 28, 2022 private placement ³	175,000	28
Balance, June 30, 2022	10,786,276	\$ 1,424

¹ Each warrant reflects the 1.00542 exchange ratio in accordance with the terms of the Amalgamation.

² In connection with the Offerings, the warrants were valued using the Black-Scholes model and the following inputs: exercise price of \$0.70 per share, expected term of 24 months, annualized volatility based on publicly traded peer companies of 103%, a risk-free rate of 3.1%, and zero expected dividends. The weighted average Black-Scholes fair value is \$0.16 per warrant, with the relative fair value ascribed to the warrants issued as part of the financing totaling \$844,000.

Helium Evolution Incorporated (formerly Duckhorn Ventures Ltd.)

Notes to the Condensed Interim Consolidated Financial Statements

As at June 30, 2022, for the three and six months ended June 30, 2022,

three months ended June 30, 2021 and the period from incorporation on January 14, 2021 to June 30, 2021

(tabular amounts expressed in thousands of Canadian Dollars, except number of shares and warrants, unaudited)

³ On June 28, 2022, HEVI issued 175,000 warrants to a finder in connection with the strategic investor private placement. The warrants were valued using the Black-Scholes model and the following inputs: exercise price of \$0.70 per share, expected term of 24 months, annualized volatility based on publicly traded peer companies of 103%, a risk-free rate of 3.1%, and zero expected dividends. The weighted average Black-Scholes fair value is \$0.16 per warrant.

9. Share Option Plan

The Company has an incentive Share Option Plan (the "Plan") for directors, officers, employees, and consultants, under which the Company may issue share options to purchase common shares of the Company provided that the amount of incentive share options which may be granted and outstanding under the Plan at any time shall not exceed 10% of the then issued and outstanding common shares of the Company.

The number of share options issued and outstanding, weighted average exercise price and weighted average remaining life is as follows:

	Number of Options	Weighted Average Exercise Price (\$/share)	Weighted Average Remaining Life (years)
December 31, 2021 ¹	3,418,428	\$ 0.300	4.9
Issued	4,000,000	0.385	5.0
June 30, 2022	7,418,428	\$ 0.345	4.7

¹ Each option reflects the 1.00542 exchange ratio in accordance with the terms of the Amalgamation.

The number of share options exercisable and the weighted average exercise price is as follows:

	Exercisable Options	Weighted Average Exercise Price (\$/share)
December 31, 2021	-	\$ 0.30
June 30, 2022	683,686	\$ 0.30

The fair value of options granted is measured using the Black Scholes pricing model. Measurement inputs include the share price on the measurement date, exercise price of the instrument, expected volatility based on publicly available information for similar companies, weighted average expected life, estimated forfeiture rate, expected dividends, and the risk-free interest rate. The fair value is amortized to share based compensation expense and/or capitalized over the option vesting period with a corresponding offset to contributed surplus. The options vest equally every six months for a period of thirty months from the grant date.

The fair value of the options on the date of issuance was determined using the following Black-Scholes pricing model inputs:

Share price	\$ 0.385
Risk-free interest rate	3.10%
Expected life (years)	5
Expected volatility	103%
Forfeiture rate	0%
Expected dividends	Nil
Fair value	\$ 0.30

Helium Evolution Incorporated (formerly Duckhorn Ventures Ltd.)

Notes to the Condensed Interim Consolidated Financial Statements

As at June 30, 2022, for the three and six months ended June 30, 2022,

three months ended June 30, 2021 and the period from incorporation on January 14, 2021 to June 30, 2021

(tabular amounts expressed in thousands of Canadian Dollars, except number of shares and warrants, unaudited)

10. Supplemental Cash Flow Information

	June 30, 2022	June 30, 2021
Change in non-cash working capital:		
Accounts receivable	\$ (201)	\$ -
Deposits and prepaid expenses ¹	(1,231)	5
Accounts payable and accrued liabilities	572	7
	\$ (860)	\$ 12
Allocated to:		
Operating	\$ (177)	\$ -
Financing	(111)	5
Investing	(572)	7
	\$ (860)	\$ 12

¹The December 31, 2021 deposits and prepaid expenses balance included a non-cash amount of \$467,000, associated with the Black-Scholes value of the broker warrants issued as part of the Subscription Receipts financing that closed on November 21, 2021. This amount was transferred out of deposits and prepaid expenses upon release of the escrowed funds and recorded to warrant equity and is excluded from the supplemental cash flow calculation.

11. Financial Risk Management

The Company's activities expose it to a variety of financial risks that arise as a result of its exploration, development, production, and financing activities such as:

- Credit risk
- Market risk
- Liquidity risk

This note presents information about the Company's exposure to each of the above risks, the objectives, policies, and processes for measuring and managing risk, and the Company's management of capital. Further quantitative disclosures are included throughout the financial statements.

HEVI is exposed to normal market risks inherent in the helium business, including, but not limited to, commodity price risk, foreign currency rate risk, credit risk, liquidity risk and interest rate risk. The Company seeks to mitigate these risks through various business processes and management controls and from time to time by using various derivative financial instruments and physical delivery sales contracts.

(a) Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations and arises principally from the Company's cash and accounts receivable.

The carrying amount of cash on hand, and accounts receivable represents the maximum credit exposure. As at June 30, 2022, the Company's receivables consisted of sales taxes paid on general and administrative and capital expenditures.

Cash on hand is held by a level 1 financial institution and restricted cash was held with the transfer agent.

(b) Market risk

Market risk is the risk that changes in market conditions, such as commodity prices, foreign exchange rates and interest rates will affect the Company's income or the value of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while maximizing the Company's return.

Helium Evolution Incorporated (formerly Duckhorn Ventures Ltd.)

Notes to the Condensed Interim Consolidated Financial Statements

As at June 30, 2022, for the three and six months ended June 30, 2022,

three months ended June 30, 2021 and the period from incorporation on January 14, 2021 to June 30, 2021

(tabular amounts expressed in thousands of Canadian Dollars, except number of shares and warrants, unaudited)

Interest rate risk:

Interest rate risk is the risk that future cash flows will fluctuate as a result of changes in market interest rates. The Company does not have any interest rate exposure as at June 30, 2022.

Foreign exchange risk:

Helium prices are based on US dollar denominated commodity prices. As a result, the Canadian dollar price received by the Company will be affected by the Canadian and US dollar exchange rates once helium revenues are realized.

(c) Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting obligations associated with its financial liabilities. The Company's financial liabilities consist of accounts payable and accrued liabilities.

Accounts payable consists of invoices payable to trade suppliers for general and administrative activities and exploration and evaluation expenditures. The Company processes invoices within a normal payment period. Accounts payable have contractual maturities of less than one year. The Company maintains and monitors a certain level of cash which is used to finance all operating and capital expenditures.

HEVI anticipates having adequate cash on hand and funds flow to meet its contractual obligations and commitments and discharge its liabilities as they come due. In order to ensure it has sufficient liquidity, the Company may access capital markets. Management anticipates that these efforts will provide enough financial flexibility to meet the Company's contractual obligations and commitments and discharge its liabilities, until it generates cashflow from operations.

The timing of undiscounted cash outflows relating to the financial liabilities outstanding at June 30, 2022 is outlined in the table below:

	1 year	2 years	3 years	> 3 years	Total
Accounts payable and accrued liabilities	\$ 918	\$ -	\$ -	\$ -	\$ 918
Lease obligations	20	14	4	2	40
Total	\$ 938	\$ 14	\$ 4	\$ 2	\$ 958

Capital management:

The Company's capital structure includes shareholders' equity and working capital. HEVI's general policy is to maintain a strong financial position to allow for exploration of its existing land base. The Company's objective is to maintain a capital structure that allows it to finance its business strategy using primarily internally generated cash flow and equity markets, and to optimize the use of its capital to provide an appropriate investment return to its shareholders.

HEVI monitors its capital structure and makes adjustments on an ongoing basis in order to maintain the flexibility needed to achieve the Company's long-term objectives. To manage its capital structure, the Company may adjust capital spending, issue new equity, issue new debt, or obtain alternative financing.

The Company is in the process of exploring its helium properties and has not yet determined whether these properties contain deposits that are economically recoverable. As the Company does not yet have cash flow from operations, it must rely on cash on hand and future equity financing to fund operations. To date the Company's main source of funding has been the issuance of equity and warrant securities for cash, through private placements.

The Company's continuing operations and underlying value and recoverability of the amounts shown for exploration and evaluation assets are entirely dependent upon the existence of economically recoverable reserves, the ability of the Company to obtain the necessary financing to complete the exploration and development of its helium property interests and on future profitable production or proceeds from the disposition of the helium property interests.

Helium Evolution Incorporated (formerly Duckhorn Ventures Ltd.)

Notes to the Condensed Interim Consolidated Financial Statements

As at June 30, 2022, for the three and six months ended June 30, 2022,

three months ended June 30, 2021 and the period from incorporation on January 14, 2021 to June 30, 2021

(tabular amounts expressed in thousands of Canadian Dollars, except number of shares and warrants, unaudited)

As at June 30, 2022, the Company had a positive working capital balance of \$14.8 million.

These and other factors may adversely affect the Company's liquidity and ability to generate income and future cash flows.

12. Commitments

The Company holds helium permits that require minimum expenditures on an annual basis (see note 5).

The Company entered into a 2-year office lease agreement, commencing November 1, 2021, and ending October 31, 2023, and has entered into office equipment leases. The lease commitments as at June 30, 2022 are as follows:

	1 year	2 years	3 years	> 3 years	Total
Lease obligations	\$ 20	\$ 14	\$ 4	\$ 2	\$ 40

13. Related Party Transactions

The following table summarizes transactions with related parties:

	June 30, 2022
Exploration and evaluation expense – management	\$ 5

Under the terms of the January 14, 2021 share issuance to certain management and directors, the Company recorded \$720,000 as pre-exploration expenditure under E&E expense.

Pursuant to a Royalty Agreement between HEVI and certain HEVI founders, a 3.0% gross overriding royalty ("GORR") on the Company's Saskatchewan helium permits applied for prior to March 30, 2022 was granted to executive members and companies controlled by directors and officers of the Company. As a result, the Company assigned a value of \$5,000 to E&E expense.

On January 12, 2022, the Company entered into a Secured Promissory Note (the "Promissory Note") with a director of the Company in the amount of \$1.5 million with an annualized interest rate of 10 percent. The note was secured by a General Security Agreement between the parties providing the lending party with security over the assets of the Company. The Promissory Note was repaid in full on March 18, 2022, along with total interest of \$37,500, and the security was subsequently discharged.
